

Xerox Connect Key might be a game-changing technology, it has so far been inbuilt into only a few printers. These printers are prized highly for workplaces and home offices worldwide. Check out the best models to get this technology into your life.

Xerox Connect Key enables mobile and cloud capabilities on your printer, and makes it very easy for your team to work from anywhere. This technology is highly prized, however, it is available only on certain multifunction printers in Dubai and Abu Dhabi. Acquiring one of these printers enables you to enjoy all its benefits and witness a 7x growth in your business!

Here are three models and series to consider immediately. Each of these series is available at CAD Reprographics LLC to purchase, hire, or lease as per your convenience and needs.

Check out these top Xerox Connect Key-enabled MFPs

The glossy Xerox Versalink C7000 series

The Xerox Versalink C700 series includes high-quality colour printers with support for the mobile and tab. The series includes compact models with small footprints, and saves space without sacrificing any of its features or functionality.

Xerox Connect Key technology creates an intuitive user experience with a gesture-based touchscreen tablet which can be customized according to each team member. Team members can work from any location through cloud-based services. Access the Xerox App Gallery to develop custom solutions for your business problems by designing them yourself based on your needs.

The Xerox Versalink B400 series

The Xerox Versalink B400 series (The B400 and B405 multifunction printers) are a series of true workplace assistants, known for their security and connectivity options. Device management and user training can be done from anywhere if you want to use the Remote-Control panel.

Xerox Connect Key technology here provides comprehensive services to prevent unauthorized access, detect any suspicious or malicious beliefs, and protect all your data and documents. The technology gives you access to Google Drive, Microsoft OneDrive, and DropBox, with more options open through the Xerox App Gallery.

The high-performing Xerox Altalink C8000 series

The Xerox Altalink C800 series of multifunction printers (which include the C8030/C8035/C8045/C8055/C8070 printers) is the perfect equipment for mid-to-large workgroups and bustling offices with more than 50-100 employees. Handling this workforce and giving them access to all necessary documents and workflows they need to work faster is important, and Xerox Connect Key technology assists with that process.

The Xerox App Gallery enables you to install Connect Key expansions such as printbyXerox, Google Cloud Print, Xerox Print Service Plug-In for Android, Airprint, and Mopria. The Connect Key technology also helps you to monitor the service delivery and consumables from the multifunction printer.
